

TermiPDF

Feature Demo

This document exercises every feature visible in the README's screenshot gallery: highlighting, ink, text insertion, QR codes, drag-drop page reordering, page rotation, image · PDF, and the embedded terminal.

Chapter 2 · Embedded Image

The image below was inserted via `fitz.insert_image()`; it round-trips through the doc unchanged.

Chapter 3 - Contents

Section A

This is a paragraph spanning the left half of page 4. Its purpose is to fill the left column with text, while the right column is filled with identical text, but with a different emphasis.

Subsection A.1

More body copy on the left column. Each of these headings is followed by a body paragraph to round out the

Section B

Subsection B.1
